About the Headaches in TCM

The head is the highest point of all Yang. The brain is the house of the soul and the seat of consciousness. The head is the convergence of the essence of the blood and qi of the five zhang organs and six fu organs. The head connects and control whole body.

If the Qi in the meridians are blocked by external factors, headache is the result. Internal causes include: deficiency of Qi or blood, stagnation of phlegm that can block the meridians, or damaged by excess of the emotions, or liver fire flaring up. All these reasons may cause the headaches also.

Usually, in TCM has four patterns on headaches, as YangMing, ShaoYang, TaiYang, JueYin.

Tension Headache

Tension headache is a primary headache and most common type of headache. They feel like a constant ache or pressure around the head, especially at the temples or back of the head and neck. Not as severe as migraines, they don't usually cause nausea or vomiting, and they rarely halt daily activities, doesn't run in families. Women are twice as likely to get them as men, most in the adult.

Pathogenesis

The neck muscles tighten up (spasm) to make misaligned vertebrae

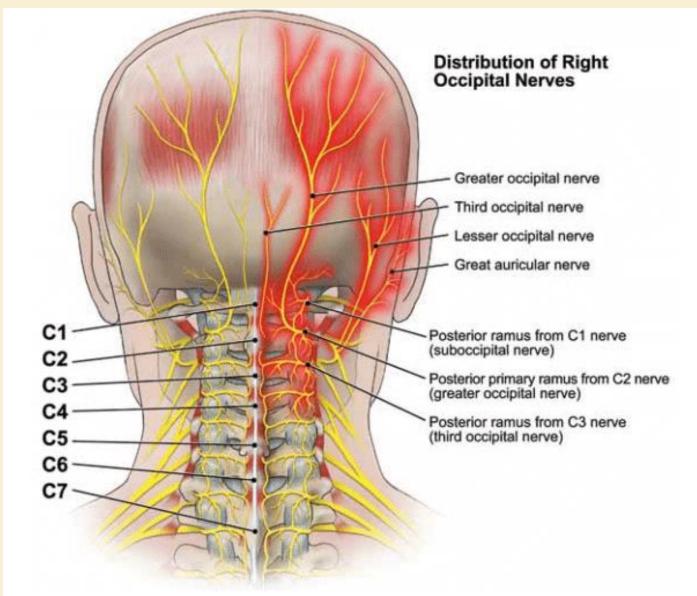

Misaligned vertebrae sends warning signals to the neck muscles to tighten up

That irritates underlying nerves in neck and send warning signals up to the head muscles, then respond by tightening up suddenly

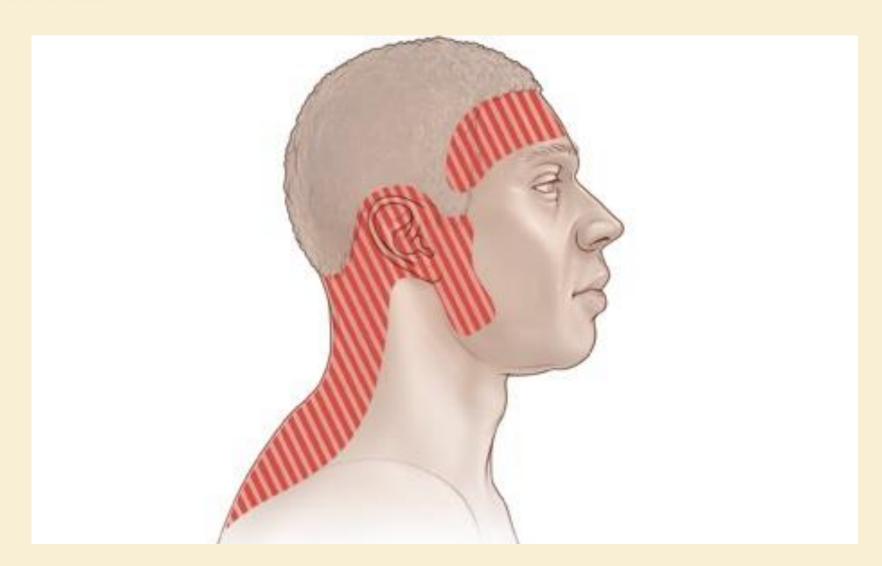

These tightening muscles create a chain reaction spasm encircling the head

Tension headache

Causes

Bad posture
Over activity
Stress
Depression
Anxiety
Fatigue
Low iron levels

Symptoms

- Mild to moderate headache
- The pain can radiate from the upper back, neck, shoulders, above the eyes, around the ears.
- Headache that starts later in the day
- Pulsing sensation
- Trouble sleeping
- Feeling very tired
- Irritability
- Trouble focusing
- Mild sensitivity to light or noise

Diagnosis

Blood tests: negative or may low iron

X-ray: may have misaligned on cervical vertebrae

MRI: may have the herniated disc

CT scan: negative on the brain and sinuses

Medication treatment (anti-inflammatory)

Adjustment manipulations

Chen's experience of Treatments on the Headaches

- 1. Differential diagnosis: look, listen, smell, asking, test
- 1 How long has been the pain? How often get the pain? What kind the pain? Where is the pain?
- (2) What treatment or medications you had before?
- (3) Family? What test you have?
- 4 Locate the pain spots.
- (5) Pulse and tongue.

2. Herbal formulas:

- ①ShaoYang Headaches (少阳头痛): Xiao Chai Hu Tang Modified (小柴胡汤加减)
- ②Tai Yang headache (太阳头痛): Qiang Huo Fang Feng Tang (羌活防风汤)
- ③Jue Yin headache (厥阴头痛): Wu Zhu Yu Tang Modified (吴茱萸汤加减)
- ④Yang Ming headache (阳明头痛): Bai Hu Tang Modified (白虎汤加减)
- ⑤ Fang Feng Tong Sheng Wan (防风通圣丸)
- ⑥ Tian Ma Gou Ting Wan (天麻钩藤丸)

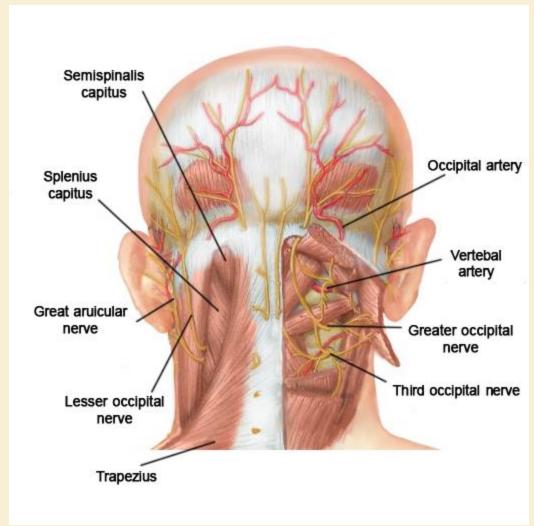

3. Acupuncture (or electrical acupuncture)

- Main points: GB 20 (风池), BL 13 (肺腧), LI 4 (合谷)
- Assisted points:
- ①Frontal headache: EX- HN3 (YinTang印堂), ST 8(头维), ST 44 (内廷
- ②Migraine: EX- HN 5 (TaiYang 太阳), GB 8 (率谷), SJ 5 (外关)
- ③Headache at top of head: DU 20 (百会), EX-HN 1 (SiShenCong 四神聪), LR 3 (太冲), BL 7 (通天)
- ④ Headache at back of head: BL 10 (天柱), DU 16 (风府), SI 3 (后溪)
- Option points: Fever -- DU 14 (大椎), LI 11 (曲池); Nausea PC 6 (内关), RN 12 (中脘); Dizziness SP 6 (三阴交), LR2 (行间), KI 3 (太溪)

Anatomy of the point

GB 20 (风池):
In the superficial layer is trapezius muscles and lesser occipital nerve and veins. In the deep layer is splenius capitis, semispinalis capitis and occipital artery, greater occipital nerve.

4. Tuina

- Acupressure -- GB 20 (风池), BL 10 (天柱), BL 13 (肺腧), BL12 (风门), BL 11 (大柕), SI 10 (臑腧), SJ 15 (天髎), EX-B2 (HuaTuoJiaJi 华 佗夹脊)
- Massage on the neck, shoulder blade
- Adjustment of the cervical and shoulders.
- 5. Guasha
- 6. Cupping
- 7. Cold pad and heating pad
